

BIOP course

Biomedical Optics (10380)

Guest lecture in biomedical optics

March 29th, 8:00 – 12:00

Building 309 room 209

Jörg Hübner, MIC, DTU

Spectroscopy

Topics to be covered:

Absorption/fluorescence and fluorescence spectroscopy

Raman spectroscopy and Infrared spectroscopy

Fluorescence lifetime spectroscopy

Grating based spectrometers, integrated spectrometers and Detectors

Everybody is welcome
